## Dataset: Foreign visits of the People’s Republic of China leaders

The following table shows the foreign visits carried out by the PRC paramount leaders, party leaders, presidents, and prime ministers since the founding of the PRC. In total we have gathered **566 visits** as of now. Please feel free to use this data for your own research projects while quoting this dataset as “Manuel Eckert, Richard Turcsanyi, and Matej Simalcik, Dataset: Foreign visits of the People’s Republic of China leaders, Central European Institute of Asian Studies, 2020 (hyperlink).”

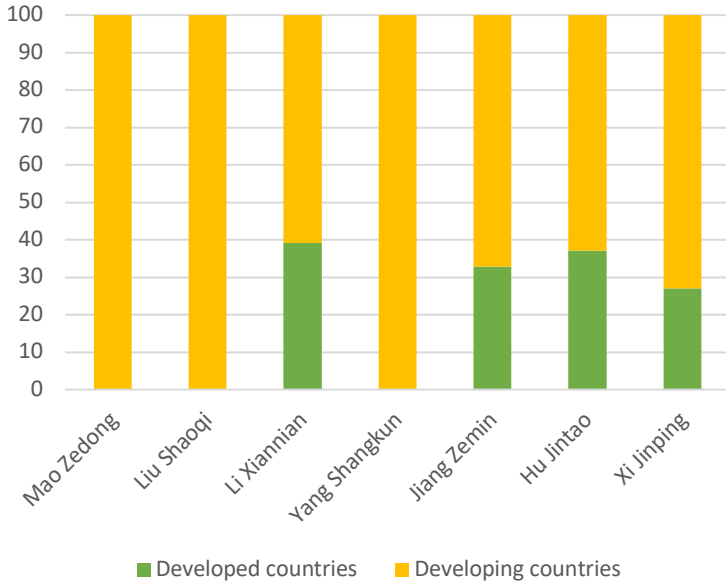

This dataset is the result of scanning through various internet sources and (academic) literature. Please, treat it as a test version and help us improve it! We might have overlooked and left out some trips – do let us know if you know of any and we will gladly update the table.
